EXPERIENCE

Google Summer Of Code, CCExtractor— *Flutter developer*   Certificate

May 2023 - September 2023

- In the CCExtractor Development organization I contributed to the **Flood Mobile** project.
- Tech Stack :- **Flutter** and **Dart** are used for this project.
- My contributions included over **100+ commits** and more than **40k+ lines of code** changes.
- I added nearly **15+ new features** and released a new flood-mobile app on Play Store.

Prelax Infotech, Gujarat— *Flutter developer*   Certificate

May 2022 - July 2022

- Prelax Infotech is an ISO-9001 certified company which was established in 2013.
- During my internship, I learned two new app development technologies :- **Flutter and Dart**.
- I actively participated in a company's Flutter project over the course of two months.

EDUCATION

Chandubhai S Patel Institute of Technology, Gujarat— *B.Tech*

June 2020 - Present **(Expected Graduation - Aug 2024)**

I am pursuing my 4th year of B.Tech in Computer Science and Engineering with a **9.5 CGPA.**

PROJECTS

Study Notion— *HTM, CSS, JS, React, MongoDB, ExpressJs, NodeJs, Razorpay, Git*   [*Source Code* | *Live*]

- This is a fully functional ed-tech platform that allows users to **create, consume, and rate educational content.**
- There are two types of users: **the instructors**, whose job is to create valuable courses, and the **students**, who want to access courses for learning purposes by paying the course fee to the instructor.
- It is a fully responsive dynamic web app that includes a **database, backend**, and **RESTful APIs**.

Temple Management — *Website & App*

- This is a web and mobile application for the **GSFC Township Charitable Trust Temple** situated in Jamnagar.
- The application serves real users of the temple and offers a range of functionalities.
- **App** : **Flutter, Dart, Firebase, Razorpay.**   [*Source Code* | *Demo* | *APK*]
- **Website** : **Html, CSS, Javascript, Express, Mongodb, NodeJS, Ejs, Razorpay.**   [*Live* | *Source Code* | *Demo*]
- These include **booking appointments for Pooja**, facilitating **online donations**, regular **updates about the temple**, offering **contact information**, showcasing a **gallery of images**, and incorporating various other features.

Multiple Games — *Flutter, Dart*   [*Source Code* | *Demo* | *APK*]

- It is a compilation of several games that were popular among us during childhood.
- These games were merged into one application. The games I created include **Piano Tile game, Dinosaur Game, AI tic-tac-toe (easy, medium, hard levels)**, **2048 Game (3X3, 4X4, 5X5, 6X6)**, **Pac-Man Game**, and **Mini Sweeper Game** with their customization version.

SKILLS

Languages
- Dart | JavaScript
- Html | CSS

Framework
- Flutter | BootStrap
- Tailwind CSS

Library
- ReactJS

Tools
- Git | Github | Postman
- VSCode | Android Studio

Backend
- Firebase | Nodejs
- ExpressJs

Database
- MongoDB
